	Losse (J59)
5,	October: A potash mine about one-half kilometer north of Lossa, formerly a German munitions plant, is alleged to be used currently as a rocket assembly shop. The area has been closed off and is under Russian MP guard.
25X1	Rerik (at Wustrow, 051)
6,	September: V-2's are being produced
25X1	and machines of the Siemens-Werke in Berlin-Tempelhof, which made gyroscopic controls for remote-control units, have
25X1	been assembled here.
25X1	Berlin-Fuerstenwalde (V33)
7.	September: The SMA is reported to have ordered the production
	of "Kommando-Wagen" for V-2's and equipment for remote-controlled weapons from the Julius Pintsch Maschinen- & Apparate-Fabrik. This firm is lecated in Berlin-Osten 17, near the Schlesische Eahnhof, and has a subsidiary factory in Fuerstenwalde/Spree. It is also said to be connected with a plant in Getha engaged in similar work.
